The mail now leaves Janesville at 7 a. m. and reaches here between 10 and 11 a. m. and departs from this office at 2:30 p. m. The above arrangement is not giving the best of satisfaction, for the reason that the mail which has formerly arrived on the day which it was posted now reaches here the second day after, and mail which should arrive on the second day from posting now reaches here the third day after as the bulk of the mail from the west and south does not reach Janesville before 9 and 10 a. m. Thursday and the main Saturday's mail will not arrive at Fairfield until Monday The Gazette was in error last week regarding the Emerald Grove-Fairfield. daily mail service as it is no new departure for the farmers along the route to have their mail delivered to them daily, they having enjoyed that privilege for the past fifteen years.

The majority report was against granting the petition. The minority report was in favor of granting the petition. He was for the minority report and moved that the report be accepted.

This brought forth a heated discussion by several members of the council both pro and con. Atty. Jeffris was present in the interest of the Wisconsin Telephone Co.

By Ald. Peters—Orders for new sidewalks on Milton and Benton avenues.

Some Women Doubt

Many women think the bearing of children is a necessary period of great pain and distress. They doubt whether any medicine can relieve their sufferings. Well may they hesitate about taking those injurious internal mixtures so widely sold. But they may place implicit faith in

MOTHER'S FRIEND

which is a softening, relaxing and soothing liniment for external use. Doubting women should get a bottle at the drug store for $1, and test it. There is no possibility of its doing harm, and there is every likelihood of its saving them many hours of pain.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by People's Drug Co., corner Main and Milwaukee streets.

MADE A MONSTER FLAG.

Miss Mulford's Emblem Is 100 Feet Long and 65 Feet Wide.

During the war with Spain Miss Josephine Mulford of Madison, N. J., began work on the largest American flag ever made. It is almost finished now, and when popular subscriptions equal to the amount of the mortgage on her mother's home have been received she will present the monster flag to the United States government.

The flag is 100 feet long and has a hoist of 65 feet. Each star measures

MISS JOSEPHINE MULFORD.

2 feet and 8 inches across, and on each of the 45 is embroidered the name of the state it represents with the date of the admission of the state into the Union.

The stripes are five feet wide. The bunting is of extra width and quality, having been manufactured expressly for this purpose.

Five of the stars were made in historic places in the states which they represent. Thus the Pennsylvania star was made partly in the house of Betsy Ross, where the first American flag was made; partly in the room where the first Continental congress met and partly in Independence hall. The flag contains 325,000 stitches.

SAILOR TURNS REPORTER.

One of Dewey's Men Enters Journalism.

From the gun deck to the sanctum is quite an unusual jump for a man-of-war's man to take, but that is what Louis S. Young has done. Until a short time ago he was one of the crew of the Olympia. He was rated as a yeoman of the third class, and when he was not busy with regular sailor duties on the flagship he edited The Bounding Billow and published it at intervals with the aid of the ship's printer.

As his three years' enlistment expired on May 1 and he saw no more fighting ahead Yeoman Young concluded to accept an honorable discharge and leave the navy. In New York he made himself known to the editor of a great daily and was at once engaged as Dewey editor and reporter at large. His first contributions have been some interesting anecdotes about the admiral. In one of these he tells how Dewey suppressed an entire edition of The

LOUIS S. YOUNG.

Bounding Billow because it contained an article severely criticising the Japanese.

Here are two other Dewey anecdotes from Mr. Young's pen:

"Shortly after the battle in Manila bay the admiral asked me why I didn't continue the paper. I told him we didn't have any paper to print on.

"'Why,' he said, 'there's lots of it on shore.'

"That afternoon a couple of the boys went ashore at Cavite and took all the blank paper in sight from the government buildings and offices, and our war issue, containing the account of our glorius victory and the Spanish defeat was printed on captured paper of the defeated Dons.

"One day after the publication of this paper Dewey sent for me. 'Young,' said he, 'you don't say very much about me in this issue. Look here; only ten lines.'

"'Well, admiral,' I said, 'the big papers are saying everything they can think of, and my little paper would never hold all I'd have to say on the subject and do you full justice.'

"'Get out of here!' he shouted. 'You little scoundrel, get out of here!'

"And I got."

American Poultry Condemned.

Nine tons of poultry, consisting of 2,169 geese, turkeys, chickens and ducks, from Boston, were recently landed at a London dock, where it was found that they had decayed on the voyage. They could not be condemned, however, till they had been loaded on wagons and carted to a police court, where a police magistrate came out, listened to the inspector's story, satisfied himself by his own senses that the fowls were unsound, and ordered them to be destroyed. A police magistrate is apparently the only English official who can condemn bad meat, and this he can do only after listening to a complaint and examining the corpus delicti personally in his own courtroom.

One of Queen Victoria's Mistakes.

Queen Victoria, some years ago, when she visited a certain sisterhood, desired the superior to show her the place just as an ordinary visitor, and not to treat her as a queen. The superior agreed and proceeded to conduct her majesty all over the building. The queen was very much interested, but observed that wherever they went the sisters courtesied. At last she remarked to her guide: "I thought I made you understand that I wished to be treated as an ordinary visitor? Why, then, is every one courtesying?" "Pardon me, madam," replied the mother; "you have been obeyed. The reverence shown by the sisters was not intended for their queen, but for me, their superior."

Visitors Barred from the Soudan.

Many persons have, since the reconquest of the Soudan, been desirous of making trips of curiosity to Khartoum and Omdurman, but all endeavors to do so have been fruitless. The sidar will allow no stranger to enter the cities, and the government refuses all applications for permission to cross the desert. Lord Kitchener is proceeding with the work of planning out Khartoum, and by the time that travelers are free to enter the city they will find very little to show them what the city was like in Gordon's day. The reason for this action on the part of the government is that the desert is not yet safe for those who have not a military escort.

One Thing He Couldn't Explain.

This is how a Georgia darky explained a fatal accident on a railroad: "How come he died, he wuz in de way er de train; en how come he wuz in de way er de train wuz 'count er de dimmyjohn er liquor; but how come de liquor didn't spill, en de dimmyjohn didn't break w'en de train runned ober him, is one er dese t'ings dat's providential, en hid fum our understandin' fer a wise purpose. All I knows fer suttin is—I don't see how er man could go ter sleep on a railroad track, or anywhar' else for dat matter, wid such good liquor 'longside him!"

Kruger Says Course Is Clear.

Johannesburg, July 5.—An order has been issued forbidding the Johannesburg police to carry arms while on street duty. In an interview President Kruger is quoted as saying: "We shall prove to the whole world soon that we will do anything that is fair within the bounds of reason and justice. Our course is clear, and threats are unavailing."

Did Not Know Faure Was Dead.

Rennes, July 5.—In the course of an interview with MM. Demange and Labori Monday afternoon, Dreyfus attributed his return to France to President Faure, not knowing that M. Faure was dead. The lawyers report Dreyfus' health and intelligence as being excellent. He declares he is ready energetically to affirm his innocence.

WINE OF CARDUI

A LITTLE DOES MUCH.

BOONE, IOWA, Dec. 14.
No tongue can tell what I have endured in the past ten years with my monthly sickness. While suffering untold agony, a friend called and recommended Wine of Cardui. I sent for a bottle, and Oh! what relief. After the first dose I began to feel better and have had no pain since.
MRS. GRACE LAMPHERE.

McELREE'S **Wine of Cardui**

Wine of Cardui not only cures but it acts AT ONCE. Here is a case of ten years' standing, and yet one single dose made the sufferer feel better, and stopped the pain. The Wine goes straight to the seat of the trouble. It acts directly upon the menstrual and genital organs. Its action is not violent, and it does not force a result. It simply gives Nature that little assistance that the sufferer's system lacks. A single disorder in the feminine organs spreads many disorders all over the body, and when the Wine cures the source, all the other ills vanish as a matter of course. A woman can be her own physician and cure herself at home. Local examinations are largely things of the past—the obnoxious custom is no longer necessary. Wine of Cardui is the only perfectly safe and sure vegetable Wine made to-day for the cure of "female troubles".

THIS DAY IN HISTORY.

1758—George Augustus Viscount Howe killed near Fort Ticonderoga, N. Y. His skeleton was found there in 1890. Young Howe was with the vanguard of the colonial army, led by Major Israel Putnam, and he asked to be one of the first to meet the enemy. Putnam said to him, "If I am killed, the loss will be of little consequence, while your preservation is of importance to the army." The gallant Howe answered: "Putnam, your life is as dear to you as mine is to me. I am determined to go." He was killed at the first fire.

1801—David Glasgow Farragut, naval hero, born near Knoxville; died 1870.

1803—Commodore Samuel Lockwood, U. S. N., retired, died at Flushing, N. Y.; born 1803.

1895—Alexander Hester, America's greatest daguerreotypist, died at Evanston, Ills.

And the next day, too, it rained.

The long lines of bunting looked fine.

The eagle screamed, despite the weather.

But after all, is not everyone glad it is all over?

Janesville appears to be all right, and no mistake.

The cannon cracker made a deadly sound, anyway.

Well!! well!! well!!! Quite a celebration, wasn't it.

Everybody turned out and worked—and the result showed it.

WITH THE HUMORIST.

The Pennsylvania politician was thoughtful.

"I wonder," he said, "whether it is the result of thoughtlessness or is it intended as an insult."

"What?" asked the man to whom the remark was addressed.

"Why, I have just received a circular offering to sell me an orchard of plum trees."—Chicago Post.

"If you say I can't get this book cheaper at any second-hand store," blurted out the shabbily-dressed man who had been haggling over the price of a dictionary, "I say you lie!"

"If you don't take that back," exclaimed the salesman, pale with wrath and looking around for a weapon, "I'll knock you down with—with Scott's Commentary on the Sacred Scriptures!"—Chicago Tribune.

Mrs. Chugwater had been reading the story of a foot ball game.

"What is a flying wedge?" she asked.

"I think it's something they use in splitting the ears of the groundlings," responded Mr. Chugwater.—Chicago Tribune.

Mrs. Teller—She told me the whole story word for word, just as I have repeated it to you, and she made me promise not to whisper a word of it to anybody.

Mr. Teller—But you told me, my dear.

Mrs. Teller—Yes, of course; but I didn't whisper, did I?—Chicago Daily News.

WHY ROBIN HAS A RED BREAST

One of Christ's Comforters When He Hung on the Cross.

Birds played a part at the crucifixion, according to legend. After Jesus had been nailed to the cross two birds came and alighted on the extended arms of the instrument of death. One was a magpie, with a beautiful aigrette on its head and a long, waving tail, then the handsomest of birds, but the wickedest, chirping insults at the suffering Jesus. The other bird was a modest little bird, with gray plumage, which approached the cross timidly, uttering cries of grief. With its wings it tried to wipe away the blinding sweat and blood from the face of Jesus, while with its beak it tried to pluck away one of the thorns which was piercing Jesus' forehead. A single drop of blood fell on the breast of the pitying little gray bird, and gave the world the robin red breast. And to it Jesus said: "Blessed be thou, little bird, which sharest my sorrows. May joy accompany thee everywhere. Thine eggs shall be as blue as the sky above; thou shalt be the 'bird of God,' bearer of good tidings. As for thee," said he to the magpie, "thou shalt be an accursed bird. Thou shalt lose that brilliant aigrette and the beautiful colors on which thou pridest thyself so highly. Funereal bird, thy message shall be only evil, and the rain from heaven shall always fall into thy nest." The peasants of France, in accordance with this tradition, pierce the heart of a magpie with a thorn whenever they catch one. In Spain the swallow is considered the good bird, and they say that when the Roman soldiers pressed the crown of thorns on Jesus' brow the swallows came and tried to remove the thorns with their beaks. The Russians say that the swallows took away the nails which the executioners had brought, but the sparrows carried them back again. The Danish say that the moment of the crucifixion the stork, moved with pity, cried "Styrkhain! Styrkhain!" (God give him strength!) and since that time the stork has been considered sacred. It is also stated that Longinus, the Roman soldier who pierced the side of Jesus with the spear, was converted on account of the blood which fell upon him. This was due to the cleansing power of that blood, according to the church, and his eyes were thus opened to the beauty of holiness.—Philadelphia Inquirer.

Most Magnificent Tomb.

The most magnificent tomb in the world is the Taj Mahal, in Agra, Hindustan. It was erected by Shah Jehan to the memory of his favorite queen. It is octagonal in form, of pure white marble, inlaid with jasper, carnelian, turquoise, agate, amethysts and sapphires. The work took 22,000 men 20 years to complete, and, though there were free gifts and labor was free, the cost was $20,000,000.

TO SERVE TOMATOES WHOLE.—Peel tomatoes and place them on ice to become very cold. Make mayonnaise dressing by taking the yolks of two uncooked eggs. Put them into a clean, cold soup dish, beat well with a silver or a wooden fork one minute, then add a half teaspoonful of salt, a dash of cayenne and, if you like it, a half teaspoonful of mustard. Work these well together, then add, drop by drop, a half pint or more of olive oil. You must stir rapidly and steadily while adding the oil. Do not reverse the motion or it may curdle. After adding one gill of oil alternate occasionally with a few drops of lemon juice or vinegar. The more oil used the thicker the dressing; vinegar thins the dressing. If the egg and oil should curdle or separate, begin anew at once with the yolks of two other eggs in another plate and, after stirring them well, add by teaspoonfuls the curdled mayonnaise, stirring all the while, and finish by adding more oil as directed. Place the tomatoes on crisp young lettuce and serve with the mayonnaise over the cold tomato.

RAIN PLAYS HAVOC WITH CELEBRATION

FAIRLY LARGE CROWD IN THE CITY, NEVERTHELESS.

There Were Amusements Galore—Not a Dull Moment From Morning Until Night—Circus Parade Was Immense—Vaudeville Performances Were Great—Notes of the Day.

The rain played sad havoc with the Janesville Fourth of July celebration yesterday.

Dripping wet, and splashing along in the mud, the bands, the Fire police, the Grand Army veterans and the Christ Church cadets marched grimly through the streets at 10:30 o'clock, taking the discomfort cheerfully.

The decorations were all dripping wet, and most of the announced participants in the parade did not come out at all.

The Fire police headed the procession —wringing wet, but happy. Then came the fire patrol, the sides of the horses stained red by the bunting they had worn. But Driver Barriage was smiling, and the horses were nodding their heads as if they appreciated the situation.

After the patrol came the Porter band. The musicians were soaking wet, but they didn't mind it. The band was an excellent one and rendered splendid music.

The Porter band made a very favorable impression. Its music was of high grade and the swing and dash of execution won much praise. The band was in charge of W. R. Tolles, to whose efforts the progress of the band is due.

The Christ Church Cadets didn't falter as they slopped through the mud, with the water running down the gun barrels, but marched like veterans in the service.

The float "Cuba Libre" came next and was a handsome one despite the fact that the rain had ruined the bunting with which it was decorated. In the center sat Miss Cuba, while four soldiers and sailors rode with her.

Little Girls Soaked

The float of "the states was a sight. It would have been one of the finest in the parade, but the rain had spoiled it. The brave little girls in white who rode on it were soaking wet, and their pretty dresses were ruined by the red stains from the dripping bunting. But the little ones took the discomfort as a matter of course and laughed gaily.

The Monroe Martial Band, in the uniform of the United States army trudged cheerfully through the mud, the bugles blowing merry calls. The drums, however, could not be used because of the rain.

Then came the Grand Army of the Republic—the brave "old boys in blue" who never were afraid, and never will be. They carried flags and umbrellas, and didn't mind the rain at all—they had bivouacked on the bare ground in just such weather before. Mud and water didn't stop them. Not much!

Speaker Burr W. Jones had a covered carriage, and viewed the ruined street decorations in comfort.

The Modern Woodmen chopped logs on their float, and caressed their goat in spite of the storm, but the prettily decorated float was spoiled.

The rain didn't hurt the kegs on Smith's brewing float, but the bunting stained them red, just the same.

The pretty red uniform of the Y. M. C. A. band turned a shade or two darker when they got wet, but "the band played on," and played well too.

Tuckwood's big windmill, having been built to stand storms, rode out the gale all right.

C. F. Brockhouse, the dyer, had a float in line, but when the bunting began to run, Mr. Brockhouse learned what nature could do in the dying line.

The Janesville Machine company's plow float suffered in the destruction of its gay decorations.

Negroes Faded Out.

The negro cabins came next, and there were all shades of color represented among the inhabitants. The rain played havoc with the lamp black, but the characters had a good time and made a good appearance.

The Cyclone soap float was a good one, but it will require several boxes of soap to make it as clean as it was before the rain got at it.

Four cigar makers tried to work in the rain, on the next float, but red, white and blue water was dripping down the necks of the men, while their benches were afloat. The cigar makers' union furnished the float, and it was a striking one.

The Knights of the Macabees rode under umbrellas on their float, the decorations of which were ruined.

The Imperial band came last, the musicians being soaked and splashed with mud. The rain had ruined the bass drum, and a gaping hole showed where the drumstick had gone through it. But the boys poured the water out of the horns, and blew away just as if nothing was happening.

"The horseless carriage" propelled by a small steam engine—did not take part in the parade, but made a trip through the streets. It was a novel sight, but the pretty decorations had ceased to be. The carriage was the product of the Taylor machine shop.

The parade was short, but the participants made up in enthusiasm, what it lacked in number.

THE NONESUCH BROTHERS CIRCUS

Street Parade Came Off on Time and Was a Good One

Nonesuch Brothers' celebrated Spanish-American Allied Show paraded on time, and was a good feature. There were thirty-five attractions in line, including three bands. The show was gotten together only after tireless labor on the part of the famous brothers. The rain of the morning had resulted in the belief, in the minds of many of the participants-to-be, that the parade would not be given. The brothers, however, had determined to show, rain or shine, and sent notice to all hands to be on time—and most of them were. Col. David W. Watt had been secured at the expense of much trouble for himself, to see that the various cages were in their proper order. He did his work well, and others were kept busy decorating the wagons, etc. The parade came on time, too.

The two proprietors came first, being impersonated by Dr. E. D. Roberts and Geo. M. McKey.

The Monroe Martial band rendered inspiring patriotic music.

The Imperial band rode on a big float and were followed by horses and rider.

The Porter band was divided into two bands, one riding in Gately & Mansfield's ice wagon. While the other was in the Janesville Carriage work's old omnibus.

The wild animals included a lion, a leopard, and an alligator, while Thornton Read's pigs made life like "laughing hyenas," and Capt. Alex. Buchholz's elephant made an excellent feature.

To speak of the attractions in detail is impossible, but Joe Van Kirk and Ned Whiton, the charioteers, H. S. Gilkey the tramp, Milo Thayer the hayseed, J. E. Sweeney the yellow kid; the snake charmer, the German band, C. H. Gage the clown, Joe Murray the circus rider, and a dozen other characters deserved special mention. The cowboys and Indians were also especially fine.

The circus was admittedly the feature of the day and luckily no rain fell while it was parading.

DARKTOWN BRIGADE DID WELL

Performance Was Gone Through In Spite of All Difficulties.

The rain and the mud interfered seriously with the Darktown Fire Brigade's work. Chief C. J. Sloan and his men went through with the project, however, and pleased the audience. The apparatus was ingeniously made, and the hand engine threw powerful streams of water. It was so made that a lead of hose was carried through it from a hydrant, and the pipemen had all the pressure of the city mains.

Cabins were built near the Y. M. C. A. building and at Division and East Milwaukee street.

The originators and managers of this feature deserve great credit for their work.

THE STREET VAUDEVILLE SHOWS

Goodly Crowds Saw the Performers At All the Stands.

The free vaudeville shows on the streets were a pleasing feature and many people crowded about the stages. Excellent performances were given, and the actors gave a variety of entertainments.

This feature was an especially happy thought and the people enjoyed the performances very much.

THE SPEECH MAKING DEFERRED

Hon Burr W. Jones Did Not Deliver His Address

The steady rain at noon compelled the abandoning of the program of exercises at the park, and Hon. Burr W. Jones did not deliver his address. The speakers' stand was all afloat, and the rain dampened the people who had gathered to hear him.

FIREWORKS DISPLAY IN EVENING

Thousands of People Saw The Rockets and Set Pieces

The celebration closed with the display of fireworks on the vacant lots near Dr. J. B. Whiting's residence on Milwaukee avenue. The exhibition was a fine one, and an immense audience witnessed it in spite of the discomforts consequent to the steady rain all day.

The assortment of pieces was an excellent one, and the sightseers were all highly pleased.

JOE A. VANKIRK GOT FIRST PRIZE

Others Went to the Negro Cabin and Ald. H. S. Gilkey

The committee on prizes awarded the first prize, $10, to Joseph A. Vankirk, who drove a chariot in the circus parade. The second prize, $7, went to the characters on the float representing the negro cabin in the morning parade. The third prize, $3, was awarded to Aldermon H. S. Gilkey, who impersonated the tramp in the circus parade.

FOURTH ACCIDENTS WERE PLENTIFUL

PHYSICIANS MADE PREPARATIONS BEFORE HAND.

Frank Sutherland Had His Face Filled With Powder—E. H. Murdock Picked Up Cannon Cracker Too Soon—Herbert Rusch Injured By Falling From Platform.

Fourth of July seldom comes or goes without its usual number of accidents, and in this respect Janesville participants seemed to have their share of trouble yesterday.

Physicians throughout the city made preparations, and in many incidents they were called on to dress mangled limbs as the result of carelessness.

The cannon firecracker got in its deadly work, and was to a great measure to blame for the majority of accidents.

During the fireworks display on Milwaukee avenue in the evening, a sky rocket exploded in the midst of a number of sightseers. Before a number of women could get out of the way, their dresses were badly burned.

Boy Injured by Fall

During one of the vaudeville acts at the corner of Milwaukee and Bluff streets yesterday afternoon, several children in order to see the performance, crowded onto a second story platform that adjoins the rookery blacksmith building that now adorns that corner. A dozen or more boys leaned against the railing that guarded the platform, when suddenly it gave way, throwing three boys to the ground, a distance of fifteen feet.

Herbert Rusch, aged thirteen years, residing at 155 South Third street, struck on his back and on top of him fell the heavy railing. The patrol was called and the unfortunate boy was taken home and a physician summoned. He was found to be suffering severe bruises and internal injuries, but no bones were broken. The other two boys escaped with slight bruises.

Rusch's injuries resulted in a fracture of one of the bones leading from the spinal column. In falling to the ground his back struck an upturned spike in a plank which penetrated the body causing intense pain.

Dr. Q. O. Sutherland was called and assisted by Dr. W. H. Judd, they made the unfortunate boy as comfortable as possible.

Rusch will recover and is not dangerously injured.

The report late this afternoon that he was dead proved to be false.

Hand Nearly Severed.

H. H. Murdock picked up a cannon firecracker yesterday, that he supposed had gone out. He pounded the end of the cracker on the ground to make sure, but just then it exploded and tore his hand severely. The accident happened at the corner of Main and Milwaukee streets, and as soon as possible Mr. Murdock found a doctor and had his wounds dressed.

Frank Sutherland Badly Hurt.

Monday evening at 10 o'clock, Frank Sutherland, son of Mr. and Mrs. J. A. Sutherland, Dodge street, attempted to examine a toy cannon on South Main street that failed to go off. Just as he reached for it, it exploded, completely filling the unfortunate boy's face with powder. He was taken to Dr. E. F. Wood's office, and for an hour the physician worked over him. His eyes fortunately escaped injury.

A Thing that won't wait

Is failing eyesight. In place of getting better it grows worse, unless it is looked after at the outset. We are so apt to put off investigation into the trouble and the result is more disaster, as the defect continues. If your eyes have begun to show signs of weakness, the quicker you have them examined the better. If glasses are all that is necessary you are well off, but if the eyes should require treatment, every day that passes without medical aid is a loss that perhaps can never be repaired. W. F. Hayes, the eye specialist, will tell you all about eye conditions. If they require glasses he will tell you so. If they need treatment he will also inform you. He does not fit glasses unless they are necessary. Consult him at our store Saturday or Monday each week

THE BASEBALL REPORT.

Games Played Yesterday in the Two Leading Leagues.

Rain yesterday kept the Chicago and St. Louis teams in idleness. Meanwhile Philadelphia was bringing Brooklyn still nearer to things earthly by winning a couple of games and thereby going into second place, Boston shuffling down to fourth position through its double defeat by Baltimore. Chicago is still third, but nearer second than it was on Monday. In every case yesterday the winning team was twice winner. There were two thirteen-inning contests—between Cincinnati and Louisville and between Pittsburg and Cleveland. The other game between the Pirates and the Misfits went to ten innings, and both were won by Pittsburg. The Reds' double win gave them a good boost in the percentage column, and Pittsburg is coming strongly now, too. Washington took games from the Giants, one of them a shutout. The scores:

At Baltimore—Baltimore, 2; Boston, 1. Baltimore, 5; Boston, 4.

At Philadelphia—Philadelphia, 10; Brooklyn, 7. Philadelphia, 9; Brooklyn, 1.

At New York—Washington, 5; New York, 2. Washington, 2; New York, 0.

At Cincinnati—Cincinnati, 6; Louisville, 5. Cincinnati, 9; Louisville, 6.

At Pittsburg—Pittsburg, 4; Cleveland, 3. Pittsburg, 7; Cleveland, 6.

Western League.

At Minneapolis—Minneapolis, 3; St. Paul, 2. Minneapolis, 4; St. Paul, 1.

At Buffalo—Detroit, 4; Buffalo, 0. Detroit, 6; Buffalo, 5.

At Indianapolis—Indianapolis, 12; Columbus, 6. Columbus, 3; Indianapolis, 0.

At Kansas City—Kansas City, 6; Milwaukee, 5.

AMERICAN WOMAN HONORED.

Mrs. May Wright Sewall of Indianapolis Chosen as Leader.

London, July 5.—The woman's council is practically concluded, and Tuesday was spent in business meetings and attending the various receptions. The great congress has left perhaps no lasting impression on London, but much experience has been gained. As Susan B. Anthony said, the movement in America is only eleven years old, and in other countries is even less; it is impossible, therefore, to expect to find a[illegible] success at the outset.

Mrs. [illegible] Wright Sewall of Indianapolis was elected president of the International council, with Lady Aberdeen as vice president. The election does honor to all American women, but especially to Mrs. Sewall, whose efforts have been untiring. She shows, however, no signs of fatigue, and is enthusiastic over the success of the council.

Would Fix a Gold Standard.

Narragansett Pier, R. I., July 5.—The sub-committee of the senate committee on finance held two sessions Tuesday. The committee is of one mind on the proposition to commit the party to a single standard, and will undoubtedly perfect some party bill before adjourning. Another point on which it is agreed is this: A proposition must be incorporated making it impossible for a silver secretary of the treasury, should one succeed Gage, to issue silver, as silver certificates, in exchange for bonds or other outstanding government securities. Under the present currency law it is within the power of the treasury secretary to exchange silver dollars or silver certificates for all obligations which upon their face call for "coin of the government."

Fourth Honored in Europe.

London, July 5.—The Americans abroad celebrated the Fourth with great enthusiasm. The American flag was displayed in nearly every capital of Europe. The embassies in Berlin, Paris, Rome and other continental centers gave receptions. In London American flags were numerous and many of the business houses closed and gave the employes a holiday.

New Party Born in Iowa.

Des Moines, Iowa, July 5.—The Christian union party met here Tuesday and nominated a full state ticket. Nearly all members are faith healers. They would decide all governmental problems by the motto "What would Jesus do?" C. C. Heacock, the candidate for governor, has recently served a term in jail for contempt of court.

Cattle Killed in Hailstorm.

Ainsworth, Neb., July 5.—A furious hail and wind storm passed over this part of the country Tuesday afternoon. Hogs, cattle and horses have been killed and many have their eyes knocked out. All kinds of crops are beaten into the ground and were completely destroyed where the hail fell. It is feared that some lives are lost.

Big Saengerbund Deficit.

Cincinnati, July 5.—Although the golden jubilee saengerfest of the North American Saengerbund was a great success here last week from a musical standpoint, the local committee now finds a deficit of $55,000 with the great hall still unfinished. The committee will be relieved by subscriptions from prominent citizens.

President's Fourth Is Quiet.

Washington, July 5.—Washington spent the national holiday with as little demonstration as is ever seen at the national capital. There was a general exodus of the populace to seaside and suburban resorts. The president and Mrs. McKinley did not leave the white house, and they received no callers.

TAMMANY'S PROGRAM SPOILED

Plan to Ignore Bryan Upset and Ill Name Evokes Applause.

New York, July 5.—The Tammany society, following an ancient custom, Tuesday celebrated the independence anniversary with music, oratory and wine. The affair was somewhat uninteresting until ex-Gov. Hogg of Texas announced that the Chicago platform would be reaffirmed next year, line for line, and that the party would again fight the national campaign under the leadership of William Jennings Bryan. Instantly there was a storm of applause, and the greatest demonstration that has occurred in Tammany hall in many a day.

Ex-Gov. Hogg had been advertised as one of the star orators, and the New York leaders had given it out that he would refrain from mentioning either Bryan or free silver. The ex-governor, however, enumerated the Bryan articles of faith, and used Tammany to tiles of faith, and asked Tammany to victory in 1900 under the leadership of William Jennings Bryan, and the meeting gave him an enthusiastic indorsement. The proposed booming of Mayor Van Wyck as presidential nominee is felt to have been a failure.

Shoots His Employer's Wife.

St. Louis, Mo., July 5.—Mrs. Grace Miller, the young wife of William Miller, a grocer doing business on North Broadway, was shot to death by her husband's clerk, Eugene Donnelly. After the woman had fallen, mortally wounded, Donnelly leaned over her body and, raising her head, kissed her lips. This done, he retreated from the scene with a cool warning to the frenzied husband, who had witnessed the farewell caress, not to follow on penalty of his life. It is believed that Donnelly was infatuated with Mrs. Miller and that the killing was done in a spasm of jealousy. Donnelly surrendered himself at a police station several hours later.

Warned Against Idaho.

Galena, Kas., July 5.—Agents representing the Western Labor union and the Western Federation of Mines are in the Missouri and Kansas districts warning the lead and zinc miners against going to Idaho to take the place of the striking miners who are under arrest there. Many anonymous letters have been received here threatening the miners if they come. Three hundred are already there from this district, and many more are making preparations to go.

HUNDREDS MAY BE DROWNED.

Terrible Flood Disasters Reported from Texas.

COMMUNICATION IS CUT OFF.

The Brazos Valley the Scene of the Calamity—Relief Trains Sent Out—Alarming Reports of Loss of Life in the Vicinity of Brookshire.

Dallas, Texas, July 5.—Another flood disaster, which appears to be worse than that of Friday and Saturday last, happened Tuesday afternoon in the Brazos valley, about 100 miles down the river from Calvert.

The bulletin states that the large steel bridge of the Missouri, Kansas & Texas railway at Dewey station at the crossing of the Brazos river is gone.

The river in that section began rising suddenly Monday; and is six feet higher than ever before known. Immense drifts of houses, trees, fences, etc., are floating past Sealy and Dewey.

Alarming reports are coming in from La Grange and Sealy of terrible loss of life in the vicinity of Brookshire. Mayor Brashear of Houston issued a proclamation calling for men and boats to rescue the imperiled people. The Missouri, Kansas & Texas railway is sending out relief trains from Houston, La Grange and other points.

Communication with the flooded district is nearly cut off. Fear is felt that an awful disaster has happened.

Chief Lineman Lowery of the Postal Telegraph system made the following statement over the long-distance telephone from Sealy, 200 miles south of Dallas:

"The Brazos river here is more than five miles wide, and the waters are lashing furiously. All character of floatable property is rushing along with the currents. The big bridge of the M., K. & T. road at Dewey is as good as gone. The center span is six inches out of line. The entire structure is liable to go at any minute.

"Four miles of the Missouri, Kansas & Texas track is gone on the Dewey side, and about a mile on the Sealy side. If boats and special trains from Houston or other points have not yet reached Brookshire they are too late. The people, I fear, will be drowned before they are reached. This afternoon there were from 300 to 400 persons on a small island near Brookshire, and the water was rising rapidly. I fear they are drowned by this time, as they had not the slightest means of escape.

"The river here is six feet higher than in 1885, which was the record up to the present. The damage to property is enormous. I have never seen as bad a flood condition as this one."

ASK THE GOVERNOR FOR HELP.

Citizens of Brookshire, Texas, Appeal to Him for Assistance.

Austin, Texas, July 5.—The governor received the following telegram Tuesday from Brookshire, Texas:

"Gov. Joseph D. Sayers, Austin, Texas: Hundreds of helpless people are here. Everything they had was swept away by the floods. They have not a mouthful to eat and no shelter. Unless food is sent at once starvation is inevitable, and we appeal to you as governor of Texas for immediate aid and food. (Signed) John Ferguson, D. J. Parker, W. M. Cooper, and others."

The governor immediately replied by wiring the mayors of the cities of Houston, Galveston and San Antonio the following telegram:

"Am just advised that hundreds of poor people are suffering at Brookshire for want of food. Have no public funds at my disposal. Please call upon the people of your city to assist. Communicate with John H. Ferguson, D. J. Parker and W. M. Cooper, Brookshire, Texas."

Brookshire is a small town in Walter county, on the Missouri, Kansas & Texas railway, about thirty miles from the city of Houston, and is between Houston and Sealy, Texas, and is situated on the Brazos river.

Many Christian Endeavor Delegates in the City.

Detroit, Mich., July 5.—The Christian Endeavor delegates are beginning to arrive. The first to reach town were the delegations from Utah, California, South Carolina and Indiana, which came in early Tuesday. The next was the Tennessee delegation, which was quartered in down-town hotels. Then followed delegates from West Virginia and Port Huron and other points in this state. A second delegation of Tennesseeans came in in two sections over the Wabash road several hours behind schedule time.

Delegates are arriving on specials from time to time. It is estimated there are now about 2,000 in the city, and by noon another 1,000 will be added.

The camping ground is ready for the convention. The formal opening of the convention occurs tonight at Tent Endeavor, when the juniors will salute the visitors with the flags and songs and the big chorus will thunder out a welcome in behalf of the city and state. The address of welcome will be delivered by Mayor Maybury. There will be responses by distinguished visitors and an informal reception will follow.

SAYS JONES WILL RESIGN.

Ex-Congressman Carruth Talks of a New Democratic Chairman.

New York, July 5.—Ex-Congressman Asher G. Carruth said last night:

"I have reason to believe that the democratic national committee has been called together to accept the resignation of Senator Jones as chairman and to elect his successor. The senator is a sick man, and his physical condition will not permit him to undergo the strain incidental to the discharge of the arduous duties of the chairmanship in a presidential campaign. I should like to see ex-Congressman Benjamin Cable of Illinois elected chairman, but in my opinion that position will go to ex-Gov. William J. Stone of Missouri."

Defeat Obligatory Arbitration.

The Hague, July 5.—At a meeting of the arbitration committee the question whether arbitration should be obligatory or optional was raised, and drew a categorical declaration from the German delegate to the effect that he had received formal instructions not to accept the principle of obligatory arbitration otherwise than by special conventions. In view of this statement article 1 of the Russian proposal was struck out and replaced by a provision declaring that arbitration should be optional except in case of conventions between the powers. All the delegates adhered to this, M. Bourgeois, head of the French delegation, declaring he accepted it only as a compromise.

All-British Cable Favored.

London, July 5.—A New York Journal correspondent cables: "The chancellor of the exchequer and the colonial secretary, Joseph Chamberlain, held a conference with the Canadian high commissioner and the agents of the self-governing colonies. A serious and comprehensive discussion was opened on the all-British cable question. The Canadian government is promoting the all-British cable project with great vigor, and it is believed that it will be adopted by Great Britain, as it is favored here."

Barcelona Riots Continue.

Barcelona, July 5.—The anti-tax demonstrators paraded the streets again Monday evening and defied the police. The gendarmes and police charged upon the crowd, which stoutly resisted. Two policemen were wounded. The industrial representatives met and passed resolutions refusing to pay additional taxes.

The disturbances were renewed Tuesday. The running of street cars has been suspended and the shops have been compelled to close.

Will Put Non-Union Men to Work.

Sharon, Pa., July 5.—The strike of the blast furnace workers at Sharpsville continues. The operators have agents scouring the country for men to take the places of the strikers. One official stated that he expected 500 men to be sent to Sharpsville before the latter part of the week, and they would be put to work upon their arrival. The strikers are orderly and say they will make no trouble unless foreign labor is imported.

Dewey Going to the Dardanelles.

Port Said, July 5.—The Olympia, with Admiral Dewey aboard, will probably soon arrive at Suez and proceed to the Dardanelles, the United States minister having invited the admiral to spend a short time with him on the Bosporus.

FIERCE FIRE IN MEMPHIS.

Blaze in the Business District Costs $450,000.

FAMOUS GAYOSO HOTEL GONE.

One of the Oldest Landmarks of the City, and a Building of Historical Importance — Ex-Fire Chief Cleary Fatally Injured.

Memphis, Tenn., July 5.—A fire broke out in the establishment of the Memphis Paper company at the corner of Gayoso and Front streets late Tuesday afternoon, and before it was subdued had caused the loss of one life, the fatal injury of ex-Fire Chief Cleary and the serious injury of Assistant Fire Chief James Ryan, besides a property loss of about $450,000.

The Gayoso hotel, one of the oldest landmarks of Memphis, was one of the buildings destroyed, and, while the guests were all rescued in safety, some of them lost valuable effects in the fire, which raged fiercely for more than six hours. Ex-Chief James E. Cleary had his spine dislocated, and will probably die as a result of the injury. An unknown negro was caught under the falling walls and crushed to death.

The blaze originated in the Memphis Paper company building about 4 o'clock, and had obtained a good headway before being discovered. From lack of rain the buildings were all dry and inflammable.

The Gayoso hotel was established in 1842 and has been the scene of many historical events. It was the headquarters of Gen. Grant during his brief stay in Memphis before the fight at Vicksburg. Gen. Sherman also established his headquarters there for a time, and Gen. Hurlburt narrowly escaped capture by Forrest in the same building.

When Bank Stock Is Taxable.

Seattle, Wash., July 5.—In the federal court Judge Hanford decided that the capital stock of a bank is not stock for taxation purposes until its issuance has been duly certified and authorized by the comptroller of the currency.

[LETTER TO MRS. PINKHAM NO. 78,465]

"I was a sufferer from female weakness. Every month regularly as the menses came, I suffered dreadful pains in uterus, ovaries were affected and had leucorrhœa. I had my children very fast and it left me very weak. A year ago I was taken with flooding and almost died. The doctor even gave me up and wonders how I ever lived.

PERIODS OF SUFFERING GIVE PLACE TO PERIODS OF JOY

"I wrote for Mrs. Pinkham's advice at Lynn, Mass., and took her medicine and began to get well. I took several bottles of the Compound and used the Sanative Wash, and can truly say that I am cured. You would hardly know me, I am feeling and looking so well. Lydia E. Pinkham's Vegetable Compound made me what I am."—MRS J. F. STRETCH, 461 MECHANIC ST., CAMDEN, N. J.

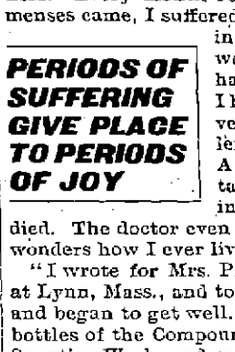

How Mrs. Brown Was Helped.

"I must tell you that Lydia E. Pinkham's Vegetable Compound has done more for me than any doctor.

"I was troubled with irregular menstruation. Last summer I began the use of your Vegetable Compound, and after taking two bottles, I have been regular every month since. I recommend your medicine to all."—MRS. MAGGIE A. BROWN, WEST PT. PLEASANT, N. J.

A FRENCH STATESMAN.

M. Poincare Has Had a Meteoric Career in Politics.

M. Poincare, the French statesman to whom President Loubet first turned after the fall of the Dupuy ministry and who made an earnest but unsuccessful attempt to organize a new cabinet, has been in politics barely a dozen years. Yet he is today one of the most able men in France, and his failure to reorganize the ministry reflects no discredit upon him. His rise in public affairs has been meteoric, for he is still a young man.

M. Poincare was born in Bar le Duc, Mense, in 1860. He received a legal education, but in 1887 he turned from the practice of his profession to politics. He was elected a member of the chamber of deputies, where he soon attracted attention on account of his

M. RAYMOND POINCARE.

brilliant speeches. He was re-elected for several terms and in 1894 was made minister of finance in the Dupuy cabinet. Later, when Ribot became premier, M. Poincare became minister of public instruction and of the fine arts. He served as vice president of the chamber in 1896, 1897 and 1898 and was re-elected a deputy last May.

Last November M. Poincare created something of a sensation in the chamber by declaring that while he was in the Dupuy ministry he knew nothing of the Dreyfus affair except what he read in the newspapers.

BEST WOMAN SWIMMER.

World's Champion Teaching Chicago Women How to Dive.

The members of the Chicago Woman's Athletic club are peculiarly fortunate. They not only have a $10,000 swimming pool, but they have for an instructor in the natatorial art Mme. Marion Lilijenstolpe, who is the champion woman swimmer of the world. She has two gold medals, one of which attests her championship, while the other was given her by the hand of King Oscar of Sweden himself at her graduation from the Royal Swimming association of Stockholm.

Few men indeed rival Mme Lilijenstolpe in her aquatic feats. Diving backward from a height of 80 feet and turning a somersault before striking the water is just a little trick to be indulged in by her upon any casual occasion. From a height of 50 feet she goes through the same performance with a depth of only 6½ feet of water to recover herself in. Indeed she has made successful dives from the same height into a sheet iron tank containing but 3½ feet of water.

One of her prettiest feats, however, is to lie gracefully on her back, hold a Japanese parasol in one hand and fan herself with the other, while she

MME. MARION LILIJENSTOLPE.

propels herself forward with her feet. A still more difficult one is to make a dive with both hands and feet tied together in a hard knot, untie them under water and proceed on the even tenor of her way.

Mme. Lilijenstolpe can almost say that she was born swimming. Her childhood was spent on the banks of the Weichsel, in eastern Prussia, a great flax growing country. There the river frequently overflows its banks, flooding the whole region round, so that the people are sometimes obliged to gather their flax standing up to their necks in water. She says she cannot remember when she was not as much at home in the water as on land.

After her marriage to a Swedish officer, Mme. Lilijenstolpe became ambitions to take a degree at the Royal association and went in for the examinations. She was awarded the highest honors ever given a woman graduate.

French Parliament Home.

Paris, July 5.—Decrees closing the session of the chambers were read in the chamber of deputies and senate Tuesday by Premier Waldeck-Rousseau and M. Monis, minister of justice, respectively.

The Echo de Paris says that the court-martial of Dreyfus will begin on July 31.

Test the Murder Theory.

St. Louis, Mo., July 5.—The police are at work on the theory advanced by Dr. Charles H. Hughes that Editor Joseph B. McCullagh of the Globe-Democrat may have been murdered. The coroner will look into any new evidence discovered and, if developments warrant it, will reopen the case.

Fireworks Are Blamed.

Nashville, Tenn., July 5.—Fire at Paris, Tenn., caused at least $50,000 loss last night. It originated in a livery stable, destroying buildings on the public square and in adjoining streets. An explosion of fireworks is the supposed cause.
